FLUID MECHANICS LABORATORY	
S.NO	**LIST OF EQUIPMENTS**
1	Calibration of Rotameter
3	Flow through Venturimeter
4	Flow through a circular Orifice
5	Flow through a Triangular Notch
	Flow through a Rectangular Notch
8	Determination of friction coefficient in pipes
9	Determination of losses due to bends, fittings and elbows
10	Centrifugal pump
11	Submersible pump
12	Reciprocating pump
13	Bernoulli's theorem apparatus
14	Kaplan turbine
15	Francis turbine
16	Pelton wheel turbine
